

GRANBY INDUSTRIES L.P.

EcoPlus EcoGuard Double-Bottom tank with exterior polyurethane coating

30-YEAR LIMITED WARRANTY CERTIFICATE

SAVE THIS CERTIFICATE. It gives you specific legal rights, and you may also have other rights that may vary from state to state. This Limited Warranty is issued by Granby Industries l.p. Fill in the installation date, model and serial numbers of the tank in the space provided below and retain this Limited Warranty for your files.

GENERAL TERMS

SUMMARY: Subject to the conditions and limitations stated here in, the double-bottom EcoPlus oil storage tanks equipped with integrated leak detection system and protection coating system are warranted against perforation resulting from defects in material and workmanship for thirty (30) years following date of installation and are warranted against perforation of the primary tank resulting from defects in material and workmanship or external corrosion for thirty (30) years following date of installation.

This Limited Warranty applies to the original purchaser and subsequent transferees, but only while the tank remains at the site of the original installation and only if the tank is installed inside the continental United States, or Alaska. The Limited Warranty applies only if the tank is installed by an installer whose competence is recognized by local authorities having jurisdiction, installed and operated in accordance with instructions available on the web at www.granbytanks.com, and in compliance with all applicable installation and building codes and good trade practices. The Limited Warranty applies only if the tank is used to store heating oil and no other substances are introduced into the tank. As used in this Limited Warranty, "installation" means the original installation of the tank.

During the first thirty (30) years after installation, we will provide a replacement tank of similar size and configuration if your EcoPlus tank becomes perforated as a result of defects in materials or workmanship, or if your EcoPlus tank becomes perforated as a result of external corrosion. During the first ten (10) years after the installation we will provide a replacement tank of similar size and configuration if your EcoPlus primary tank becomes perforated as a result of internal corrosion and compensate the purchaser of EcoPlus tank for property damages incurred by the purchaser directly caused by leakage from a defective EcoPlus primary tank up to a maximum of two million dollars (\$ 2 Million). All replacement tanks will be warranted for the remaining portion of the warranty period on the original tank. The dealer or qualified service technician must return the defective tank to a distributor that sells Granby Industries l.p. oil storage tank products, and exchange it for a replacement tank.

In lieu of providing a replacement tank, we may, at our sole option, refund to you an amount equal to the distributor's purchase price from us, or provide to you a credit equal to that amount to be applied toward the purchase of any new tank that Granby Industries manufactures.

Any labor, material, freight and/or handling charges associated with any repair or replacement pursuant to this Limited Warranty must be accompanied by the supporting documents, be approved by Granby Industries l.p. and limited to one thousand dollars (\$1,000).

In establishing the date of installation for any purpose, including determination of the starting date for the term of this Limited Warranty, proof of the original installation date must be presented (you must retain the original records that can establish the installation date of your tank), otherwise the effective date will be based upon the date of tank manufacture, plus thirty (30) days.

This Limited Warranty excludes, and, you the user, will pay for damages, losses, costs or expenses (hereafter "damages"): (a) caused by accident, abuse, negligence, misuse, riot, fire, flood, or Acts of God (b) caused by operating the tank where corrosive elements have been introduced and allowed to reside inside the tank other than those found in a normal residential environment (c) caused by an unauthorized alteration or repair of the tank affecting its stability or performance (d) caused by improper matching or application of the tank or the tank's components (e) caused by failing to provide proper maintenance to the tank (f) incurred for erecting, disconnecting, or dismantling the tank (g) parts or supplies used in connection with service or maintenance (h) incurred resulting from faulty and/or negligent installation, maintenance or application (i) arising as a result of spills from overfills and (j) where the alleged failure is not reported immediately to Granby Industries after discovery of same and/or the owner does not mitigate its damages.

In no event shall we be liable for any incidental, consequential, or special damages or expenses in connection with any use or failure of this tank other than conditions included in this EcoPlus oil storage tank Limited Warranty Certificate. We make no other representation, condition or warranty, express or implied, and specifically disclaim all statutory implied warranties or conditions, including merchantability and fitness for a purpose. No information provided to dealers, representatives, agents or employees shall create a warranty or expand this Limited Warranty herein. The provisions of this Limited Warranty are in addition to and not a modification of or subtraction from any statutory warranties and other rights and remedies provided by law.
